

# **RBEST**

The Recovery Based Engagement Support Team (RBEST) project provides community (field-based) services throughout San Bernardino County for those mentally ill individuals who are noncompliant and/or resistant to necessary psychiatric care in an effort to “activate” the individual into the mental health system to receive appropriate services.

The multi-disciplinary nature of the engagement teams presents a holistic approach to the needs of the consumers. The program is “non-clinical” in its orientation in that it will focus on the needs and goals of the consumer and helping that consumer meet those goals and eliminate obstacles through appropriate mental health treatment.
