

2021 Profile of Community Health Centers Senate District 23

Senator Rosilicie Ochoa Bogh

The Clinics

Community Health Centers (CHCs) are nonprofit health care practices located in low income and medically underserved areas. CHCs share a common mission to serve everyone who walks through their doors, regardless of their ability to pay. The term CHC include Federally Qualified Health Centers (FQHC), FQHC Look-Alikes, Migrant Health Centers, Rural and Frontier Health Centers, and Free Clinics. CHCs are an essential segment of the safety net. In many California Counties, they provide a significant proportion of comprehensive primary care services to those who are publicly subsidized or uninsured.

Episodic Programs include Breast Cancer Programs such as the Breast Cancer Early Detection Program (BCCCP) and the Breast and Cervical Cancer Control Program (BCCCP); CHDP = Child Health and Disability Prevention Program; Family PACT = Family Planning Access Care and Treatment Program and other payers covered by a grant.

Because of their philosophy and by necessity, CCHCs have been vigilant about controlling the cost of care, and the untoward effects of deferred or neglected care, by promoting a broad range of preventive health services specifically targeted to the particular needs of their communities and patient populations. The Federal Office of Management and Budget has found the Health Center Program to be one of the ten most effective federal programs and the most effective program under the federal Health and Human Services Agency. Despite enormous challenges, CCHCs have persisted in their mission to serve their local communities.
